

What's coming soon in Jinfo

Research Focus

Jinfo Research focuses on a different area of information strategy every calendar quarter:

- **Intelligence systems - beyond awareness to action**
(October - December 2018)

We scrutinise, research and map the shift from current awareness to intelligence platforms - those which encompass features such as collaborative elements, taxonomy, dashboards and visualisations - and help you decide which system suits you best.

- **The accidental technologist - where your expertise meets the new world**
(January - March 2019)

Subscription

The following articles, reports, webinars and Community sessions are scheduled for release shortly and are included in a [Jinfo Subscription](#):

Upcoming articles

- How technology is transforming manufacturing
- Developments in access and authentication
- Q&A with Kaleidoscope
